EMPLAY Employability Tools

► DESCRIPTION

Professionals working with the Cité des métiers of Cascais have identified a lack of learning materials or tools to deal with employability issues that could support and facilitate their work.

That is why, the Cité has deduced to create «EMPLAY» tools: an app, a planner, a board game and an handbook. It is designed for the personal development of employability and also as an intervention resources for various people working in the fields of education, training or youth and adult employability.

The tools were developed within a project supported by Erasmus + Youth in Action.

Several workshops and training courses have been developed for professionals, teachers and students. They have been used for the dissemination strategy.

It consists in a game with a pack of cards pitch providing challenges for participants.

► KEY FIGURES

Training sessions (from 07.2018 to 06.2019):

- 5 workshops (4h) + 1 training course (18h + application);
- 104 workers from 56 organisations trained;
- 22 high school students trained.

► RESULTS AND IMPACT

Evaluation of the usefulness of these tools : 100% of satisfaction in the 5 workshops.

Testimony of a professional : «It is very useful because it will allow us to better guide people in a more creative and dynamic ways».
